Laba manta!. I must admit it, I am a real New Holland fan and I can confirm you that this is DEFINITELY not a reskin of the Krone Big X but a brand new model added in the game and it is cheaper too.

Headers are a bit smaller, you will loose 1.5m roughly speaking, so, this isn't a real issue.. This Dlc is worth the money. But in game its a pricy machine, so make shure you save up for it.. It is Not showing up in the Shop.. What I paid for... The New Holland Pack... It says it's Installed.. But Not Showing up in the Game... Basically you get 1 machine and a couple of headers not sure if it is worth full price, but if its discounted then maybe consider it

The DLC does not show up and i cant use the new vehicles. THAT NEW VEHICLES

. WARNING: This DLC is basically just a reskin of the Krone stuff already in game. It looks great and handles fine, but don't think it's adding anything new to the game. In fact, two of the headers are actually 9m in working width, while the Krone is 10.5m.. What exactly does this do that the Krone couldn't? And I had to "pay" for this? I mean, I didn't "have" to buy it, but just the idea that they are selling what is effectively a reskinned machine, is sad.

It's well made and runs well, but why is Giants trying to exploit us with DLCs?. play this if you like farming, if you hate it, yea... no...
