This image about isuzu rodeo 4wd wiring diagram was posted on Feb 2, 2016 in category wiring diagram and has been viewed by 47 users. Q: Android Studio: Unresolved references when using a new library

So I created a new library and imported it into my project's build.gradle file but every time I try to use the new library, I get a number of errors. I am not sure how to proceed. I am fairly new to Android Studio. What is the issue here? Is there a more specific question to ask for? Build.gradle(app): apply plugin: 'com.android.application' android { compileSdkVersion 26 defaultConfig { applicationId "com.example.fasttrail.trailrunner" minSdkVersion 16 targetSdkVersion 26 versionCode 1 versionName "1.0" testInstrumentationRunner "android.support.test.runner.AndroidJUnitRunner" } buildTypes { release { minifyEnabled false proguardFiles getDefaultProguardFile('proguard-android.txt'), 'proguard-rules.pro' } } dependencies { compile fileTree(dir: 'libs', include: ['\*.jar']) androidTestCompile('com.android.support.test.espresso:espresso-core:2.2.2', { exclude group: 'com.android.support 82157476af
